

Maximizing Value, Minimizing Risk, Empowering Mission Success

ManTech partners with you to deliver agile solutions that optimize asset performance and maximize resource efficiency, ensuring mission success.

Managing a real property and infrastructure portfolio is a multi-faceted challenge that demands an understanding of your assets, the organization's mission, and the asset requirements needed to achieve it.

We bridge the gap between asset management expertise and technology. Our team combines real property Subject Matter Experts with decades of frontline experience with cutting-edge data scientists and technologists. This powerful blend delivers a comprehensive approach that empowers your organization to achieve tangible results, including:

- **Optimized Investment Decisions:** Make data-driven decisions that maximize mission and asset value.
- **Strategic Alignment:** Confidently align your assets with mission-critical needs, ensuring operational readiness.
- **Advanced Planning:** Develop robust, digital real property capital plans that enable proactive decision-making and long-term value.
- **Seamless Integration:** Break down data silos and streamline workflows, maximizing the power of your data and systems.

Our Delivery Approach: Easy, Efficient, Effective

ManTech goes beyond traditional solutions. Leveraging our industry-leading Asset Management System assessment to pinpoint high-ROI opportunities, we make it EASY for your organization to:

1. **Identify core challenges:** We quickly get to the heart of your needs, ensuring rapid solution deployment.
2. **Tailor technology solutions:** We deliver solutions that precisely fit YOUR requirements, maximizing efficiency and impact.
3. **Integrate capabilities:** We create hybrid solutions that seamlessly integrate policy, performance, processes, data, and technology for a robust and unified capability.
4. **Accelerate information flow:** We empower your organization with knowledge and insights, driving informed decision-making at every level.

Proven Results with Complex Real Property Inventories

- Reduced annual master planning costs by **40% (\$1.5M/year)** by deploying a customized, digital Comprehensive Planning Platform (CPP) for DAF-wide installations.
- Implemented the **1st Mission Dependency Index (MDI)** sustainment system in the Federal sector for the US Air Force/Space Force for **~60,000 individual real property records**.
- Implemented and maintained multiple **TRIRIGA-based solutions** across DoD, DHS and higher-education institutions.
- Authored the federal government's **first Real Property Capital Plan** for DHS, responding to new OMB M-20-03 requirements.

In business more than 55 years, ManTech excels in cognitive cyber, AI, data collection & analytics, enterprise IT, systems engineering and software application development solutions that support national and homeland security.
