

InfiniStructure

Limitless IT Landscape®

Unleash the Power of GUI-Driven Software-Defined Infrastructure

Unlock a new era of agility, efficiency and scalability with InfiniStructure™ – your all-in-one solution for creating, managing, and optimizing software-defined infrastructure. Revolutionize the way you build and scale your IT environment with cutting-edge features and unparalleled ease of use.

Key Features

Intuitive Infrastructure Building

Easily build your infrastructure with our intuitive drag-and-drop interface. Create virtual networks and deploy virtual machines effortlessly.

Deployment Flexibility

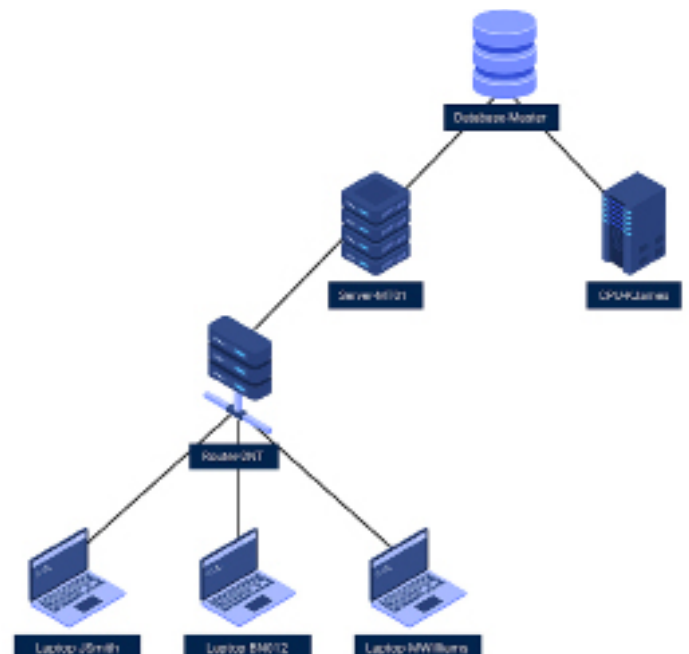

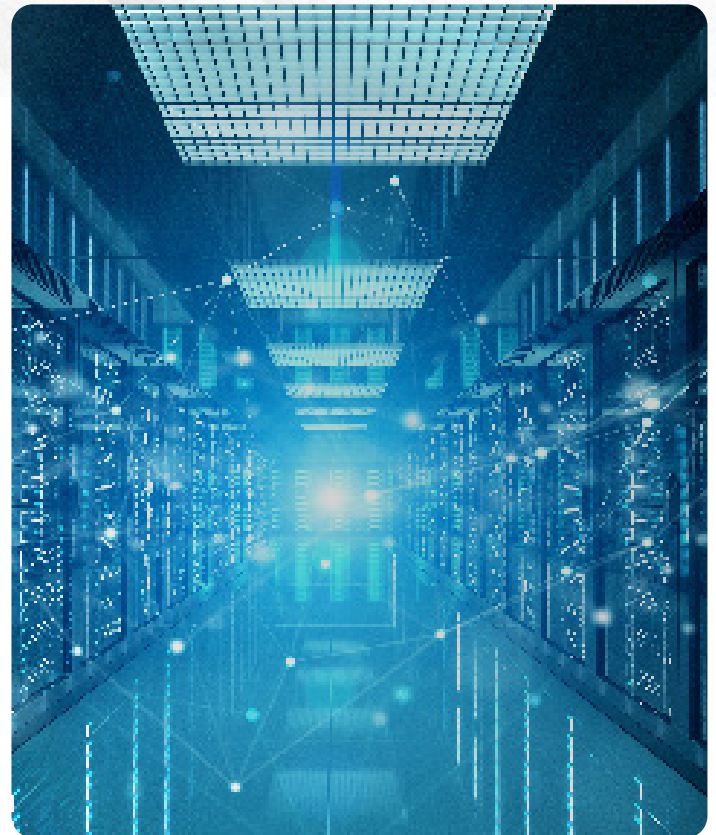

Embrace flexibility with support for multiple cloud providers as well as bare metal installs. InfiniStructure™ seamlessly integrates with popular cloud services, enabling you to deploy and manage resources across hybrid and multi-cloud environments.

Automated Workflows

Streamline your operations with automated workflows. From deployment to scaling, automate repetitive tasks and focus on strategic initiatives that drive your business forward.

Checkpointing

Use checkpoints to save network iterations as you develop. Then revert all your VMs back to previous states in seconds with the press of a single button.

Example Use Cases

Digital Twinning

Visualize and replicate real-world scenarios for government and industry. Optimize processes, identify potential issues, and enhance decision-making based on digital twin insights.

Rapid Prototyping

Bring innovation to life swiftly with InfiniStructure™'s rapid prototyping capability. Perfect for software development, IoT projects, and product design, it empowers you to iterate and prototype with ease.

Cyber Training

Deploy your own personal cyber range on premises or in the Cloud and create realistic cyber training simulations to enhance the skills of your cybersecurity teams. Safely expose trainees to diverse threats and scenarios, ensuring they are well-prepared for real-world challenges.

Why Choose InfiniStructure™?

- **User-Friendly:** No coding expertise needed – design, simulate, and deploy with ease
- **Speed and Agility:** Rapidly prototype and deploy infrastructure models in record time

- **Security Focus:** Ensure the safety of your digital twins, prototypes and training environments with built-in security features
- **Versatility:** From digital twinning to rapid prototyping and cyber training, InfiniStructure™ adapts to your diverse needs
- **Future-Proof:** Stay ahead of the curve with continuous updates and support for emerging technologies

Unlock the power of software-defined infrastructure effortlessly with InfiniStructure™ – the ultimate solution for digital twinning, rapid prototyping, and cyber training. Experience a paradigm shift in infrastructure creation through our intuitive drag-and-drop interface, empowering you to build, scale and innovate like never before.

InfiniStructure™ empowers IT professionals, system architects and DevOps teams to build and manage software-defined infrastructure with unparalleled ease and efficiency. Elevate your organization's capabilities – embrace the future of IT infrastructure with InfiniStructure™ today!

InfiniStructure: Limitless IT Landscape®

In business more than 57 years, MANTECH excels in cognitive cyber, AI, data collection & analytics, enterprise IT, systems engineering and software application development solutions that support national and homeland security.
