

Data and AI Mission Enablement Portfolio

Accelerating mission-critical decision making by delivering tailorable data and AI services built on a foundation of proven research and development. Our approach ensures that leaders reach actionable outcomes faster, backed by high-integrity data and a mission-ready framework.

Proven Foundations. Tailored Outcomes. Immediate Impact.

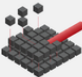

OVERLAPPING RESOURCE IDENTIFICATION
Identifies functional software overlaps and produces clear, analyst-validated reports at multiple levels.

SILOBREAKER
Enables ad hoc natural language interrogation of data sets, alone or combined, to produce tailored reports, findings, and interpretations.

FRAUD, WASTE, AND ABUSE
Deploys predictive modeling and AI tools to enhance fraud detection, ensure program and payment integrity, and identify complex entity risks.

AI FOUNDATION LAYER
Provides entry point for AI development with an AI Sandbox optimized for development and testing, infrastructure for automated model refreshes, and ML Ops playbooks to accelerate mission readiness.

COMPUTER VISION
Identifies specialized objects such as the quality of welds and individual vehicle models among images of similar makes.

CROSS-LANGUAGE INFORMATION RETRIEVAL
Provides for querying information in foreign languages without native proficiency. Allows for user interaction with multiple languages.

AI ENABLED TIER ONE SUPPORT
Leverages AI to enhance velocity and effectiveness of first-level support to mission users.

DATA FOUNDATIONS
Establishes secure, scalable data infrastructure and architectures that transform fragmented data holdings into mission-centric AI-ready ecosystems.

INSIDER THREAT
Builds data-centric and evidence-driven cultures that anticipate and mitigate threats on trusted networks.

DATA AND AI ENABLEMENT
Rapidly upskills the workforce and accelerates AI adoption to drive impactful mission outcomes.

Expert Services: Services available with any MANTECH project to improve AI Adoption.

TECHNICAL AUGMENTATION
Augment data and AI program skill gaps, support increased workloads, complete short-term projects or provide long-term program support.

AGILE DELIVERY TEAMS
Access a team of experts throughout your data and AI projects to expedite key milestones. Scalable for various use cases, customizable for your goals.

In business more than 57 years, MANTECH excels in AI, data collection & analytics, cognitive cyber, enterprise IT, systems engineering and software application development solutions that support commercial, national and homeland security clients.
